

“How to Separate Borrowers”

If a credit report has two borrowers that need to be separated the process can be done through the United One Resources web site. **This processes will create a new File number that can be used to run DU/LP.**

Log into United One at <https://unitedonerresources.meridianlink.com/custom/login.aspx>

Locate the borrowers file by searching by either last name, SSI or File Number.

On the View Report Screen go to the **Unmerge Report** Section. Un-check the borrower that is coming OFF of the report. The borrower with a check should be the borrower that a new File Number is being created for. Web will be selected then click View.

A new credit report will open for the borrower selected. IF you only want to **VIEW** the un-merged credit report it can be viewed from this screen or printed. **To create a new file number** click the Create Reissue # button. This will take the information from the day the credit was pulled and create a new report with a new report number for the selected borrower. **The new credit report created will need to be imported into Encompass and used to run DU or LP using the NEW File Number.** DU/LP will give an error if the old joint File number is used to run DU/LP on the single borrower.

Select Ok on the pop-up box to create the new file.

Once the order has been processed a new credit report will appear with a new credit reference number. This is the File Number that will be used for Encompass and DU/LP.

The borrower selected will now have a separate report. United One charges a fee for this of \$3.00.
